**Royal flush**

# Why choose shWOWer

---

## THOUGHTFUL DESIGN

**Incorporating a new design accessory into your life onboard without altering the overall design, as it remains unseen when unmounted**

## MADE WITH CARE

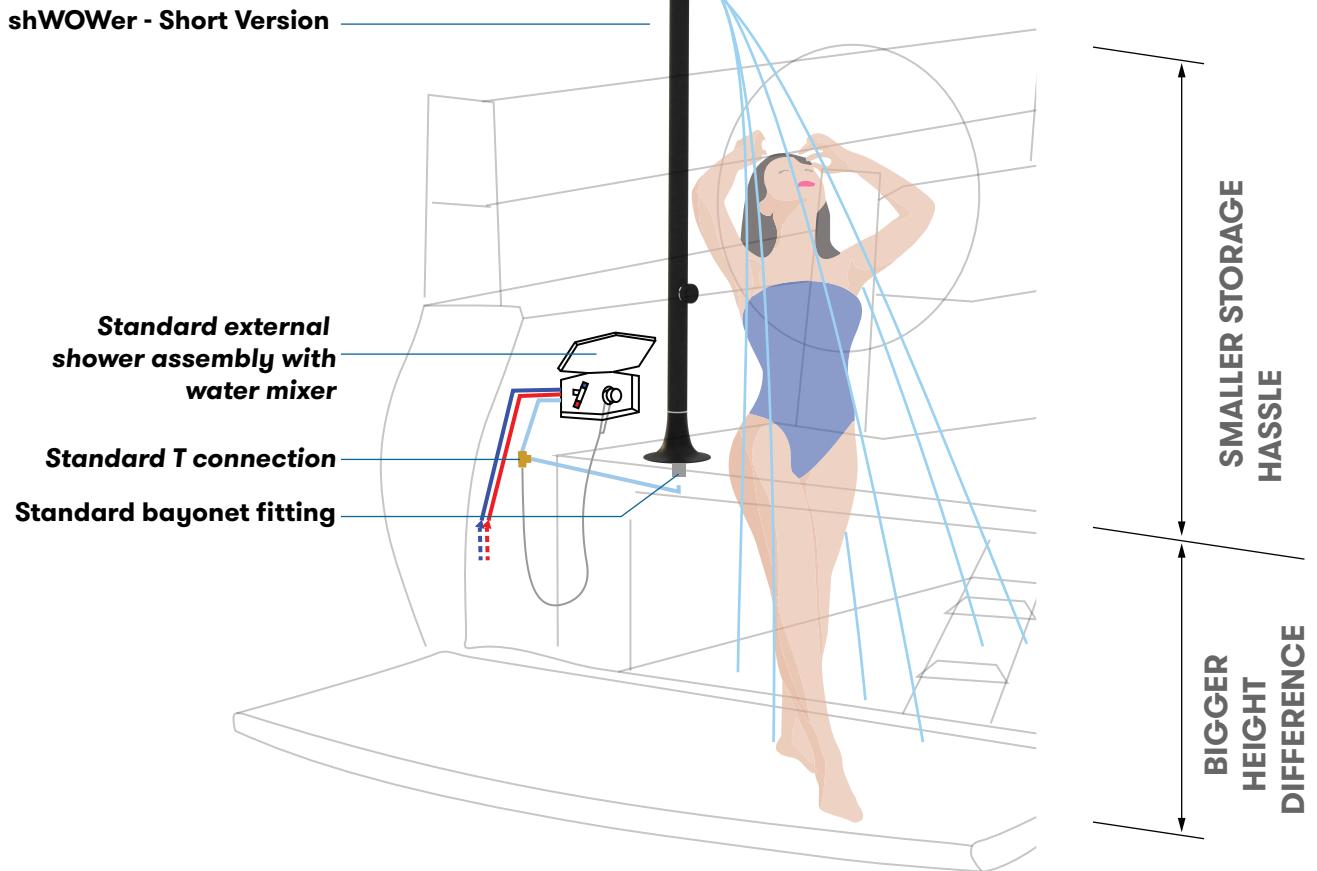

**Our product allows you to enjoy a hands-free shower experience, making it easier to apply solids shampoo**

## DUAL FUNCTION

**A lightweight and maneuverable accessory that can be easily stored under-deck, including a dual-use as the deck fitting that can be used as a deck wash plug**

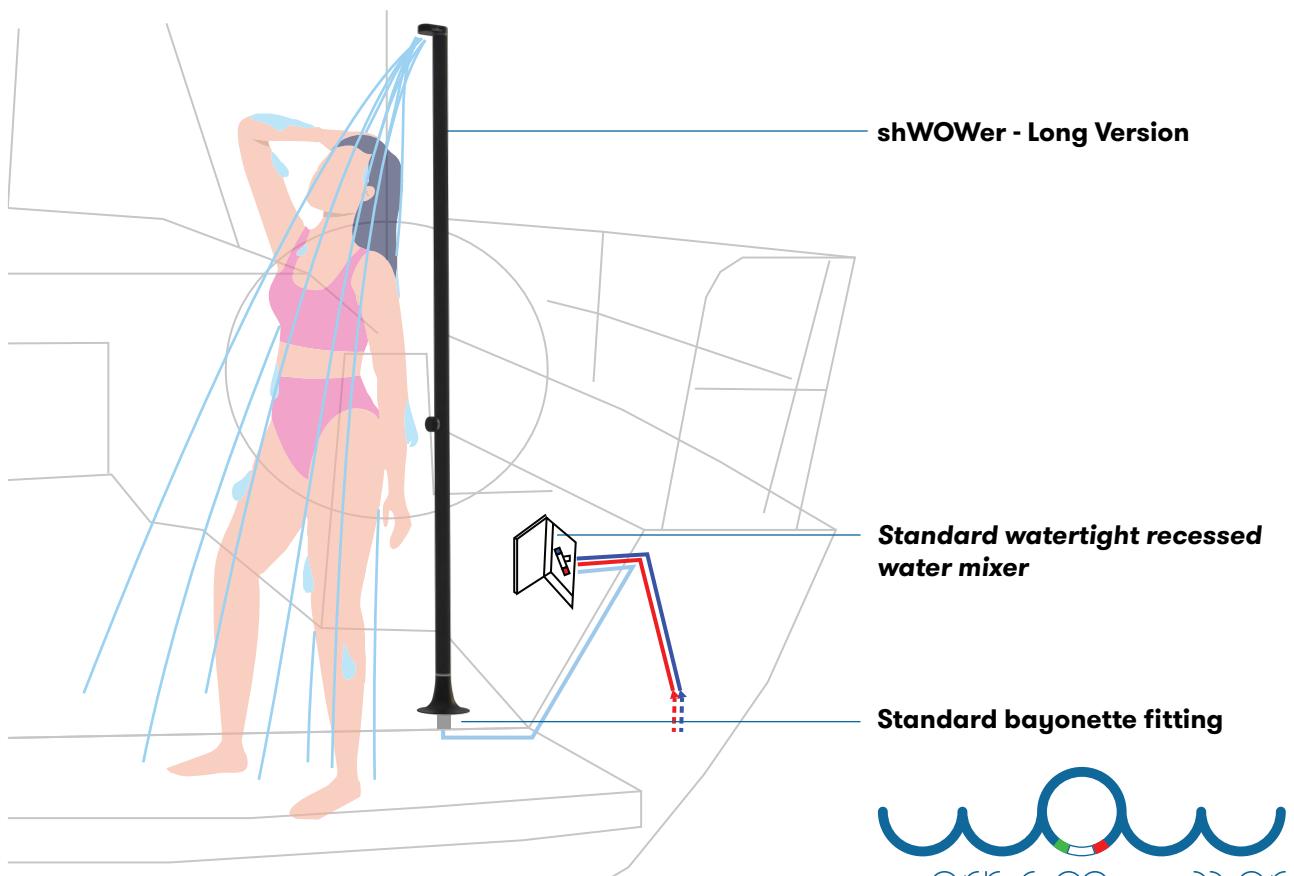

# Setup options

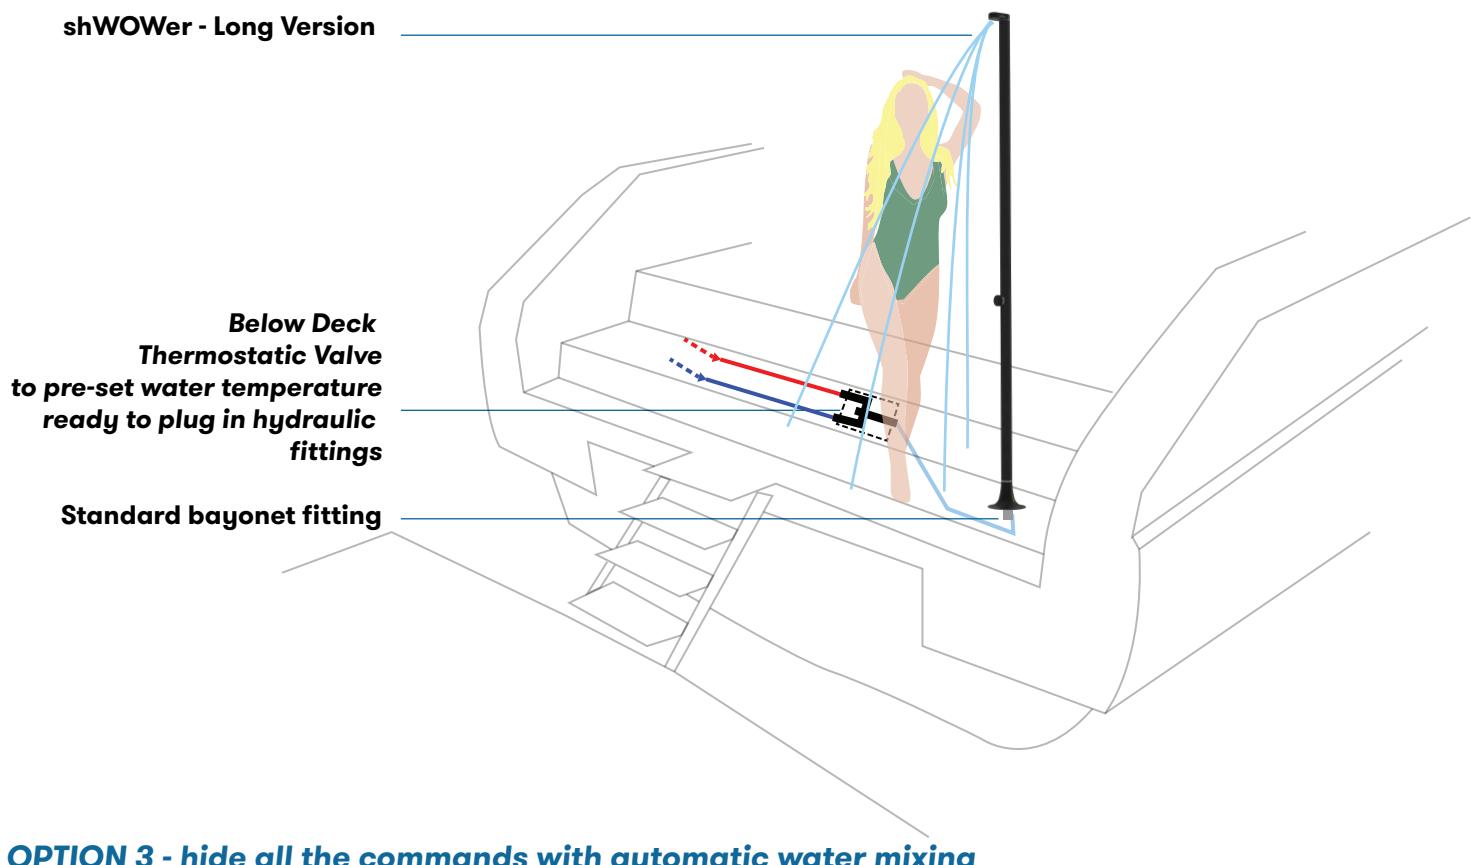

**OPTION 1 - plug it in your existing shower system**

**get your dedicated water mixer - OPTION 2**

size  
**M**

Varnished carbon fibre ø39mm **TUBE**

shWOWer valve **HANDLE**  
UV-Resistant

Compatible with  
(available on request)

Osculati Washdown System  
**16.442.22**

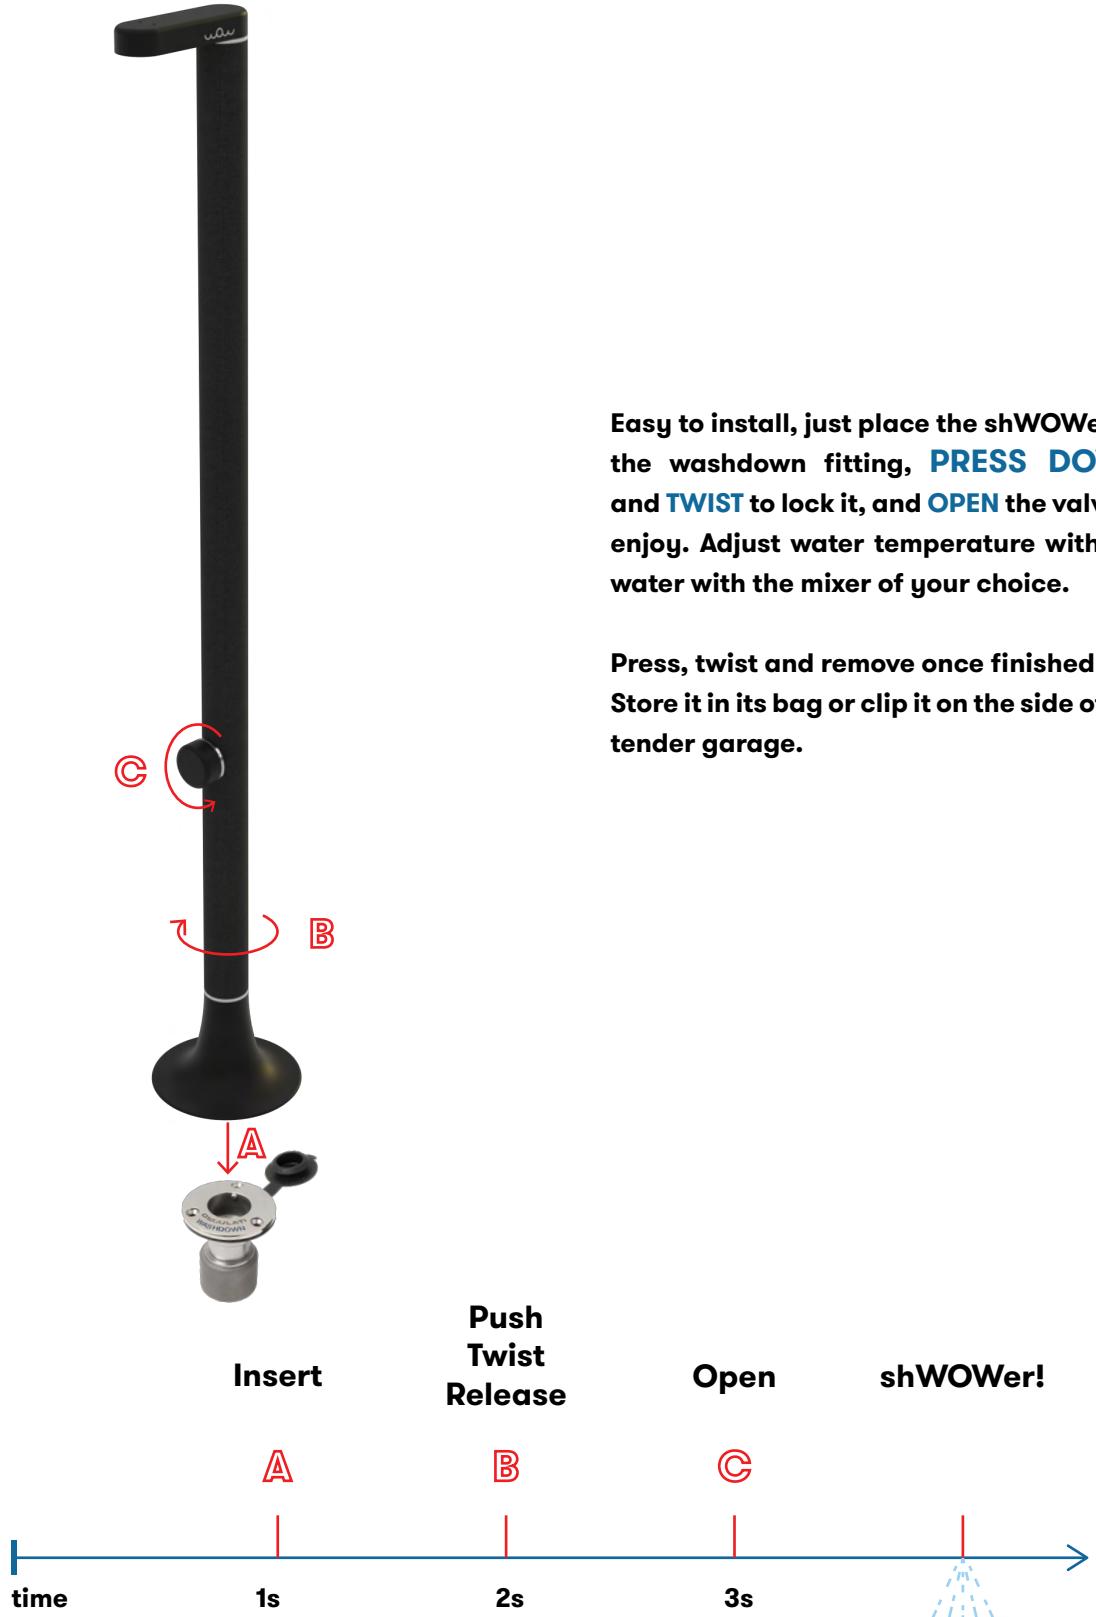

Jabsco Washdown System

shWOWer Compression **SPRING**

shWOWer Removable structural **BASE**  
UV-Resistant

shWOWer **PLUG** Bayonette fitting

# How to

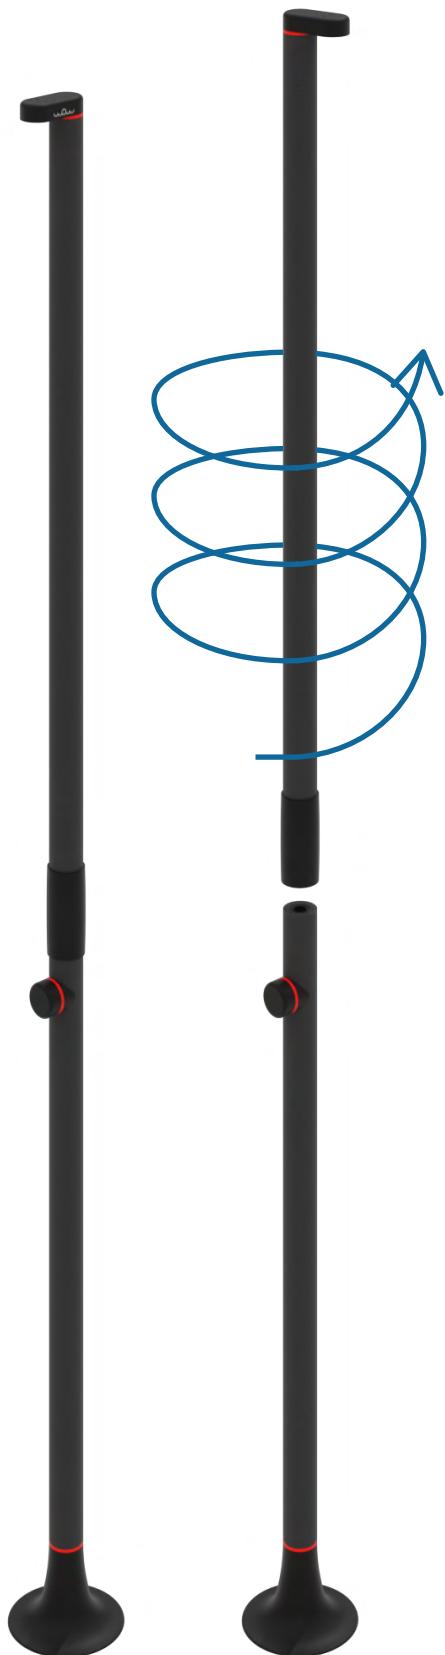

Easy to install, just place the shWOWer on the washdown fitting, **PRESS DOWN** and **TWIST** to lock it, and **OPEN** the valve to enjoy. Adjust water temperature with the water with the mixer of your choice.

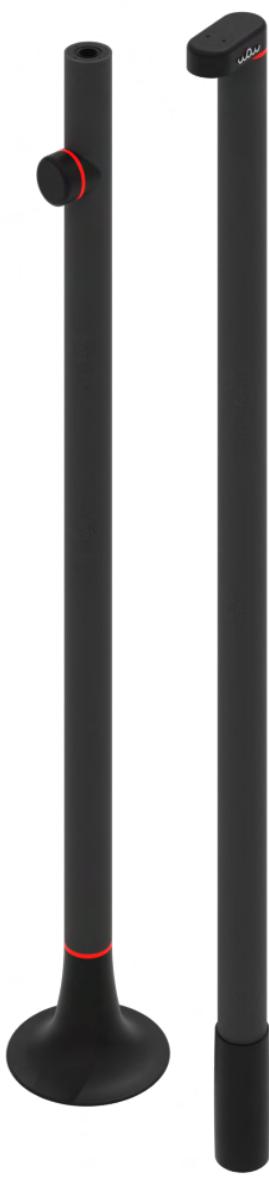

**Press, twist and remove once finished.**  
Store it in its bag or clip it on the side of the tender garage.

# When size matters

If you think the full size shWOWer is too long to stow, fear not, we can fit it with a special connection that will magically reduce its size into two super comfortable pieces that fit anywhere onboard.

# All-round

Luxury monohull

Charter

Catamaran

Daysailer

Performance rib

Classic yacht - refit

# Accessories

## STOWING CLIPS

Stowing the shWOWer away when not in use can happen in two ways: either you slide it back into its soft bag, or you clip it inside a locker compartment. The first scenario is straightforward as the Soft Bag is included when you purchase one shWOWer. If you want to clip underdeck, these clips have been carefully designed soft, so the transparent varnish of the carbon tube won't be affected. You only need to screw them on and the rubber band will do the rest.

## SOAP HOLDER

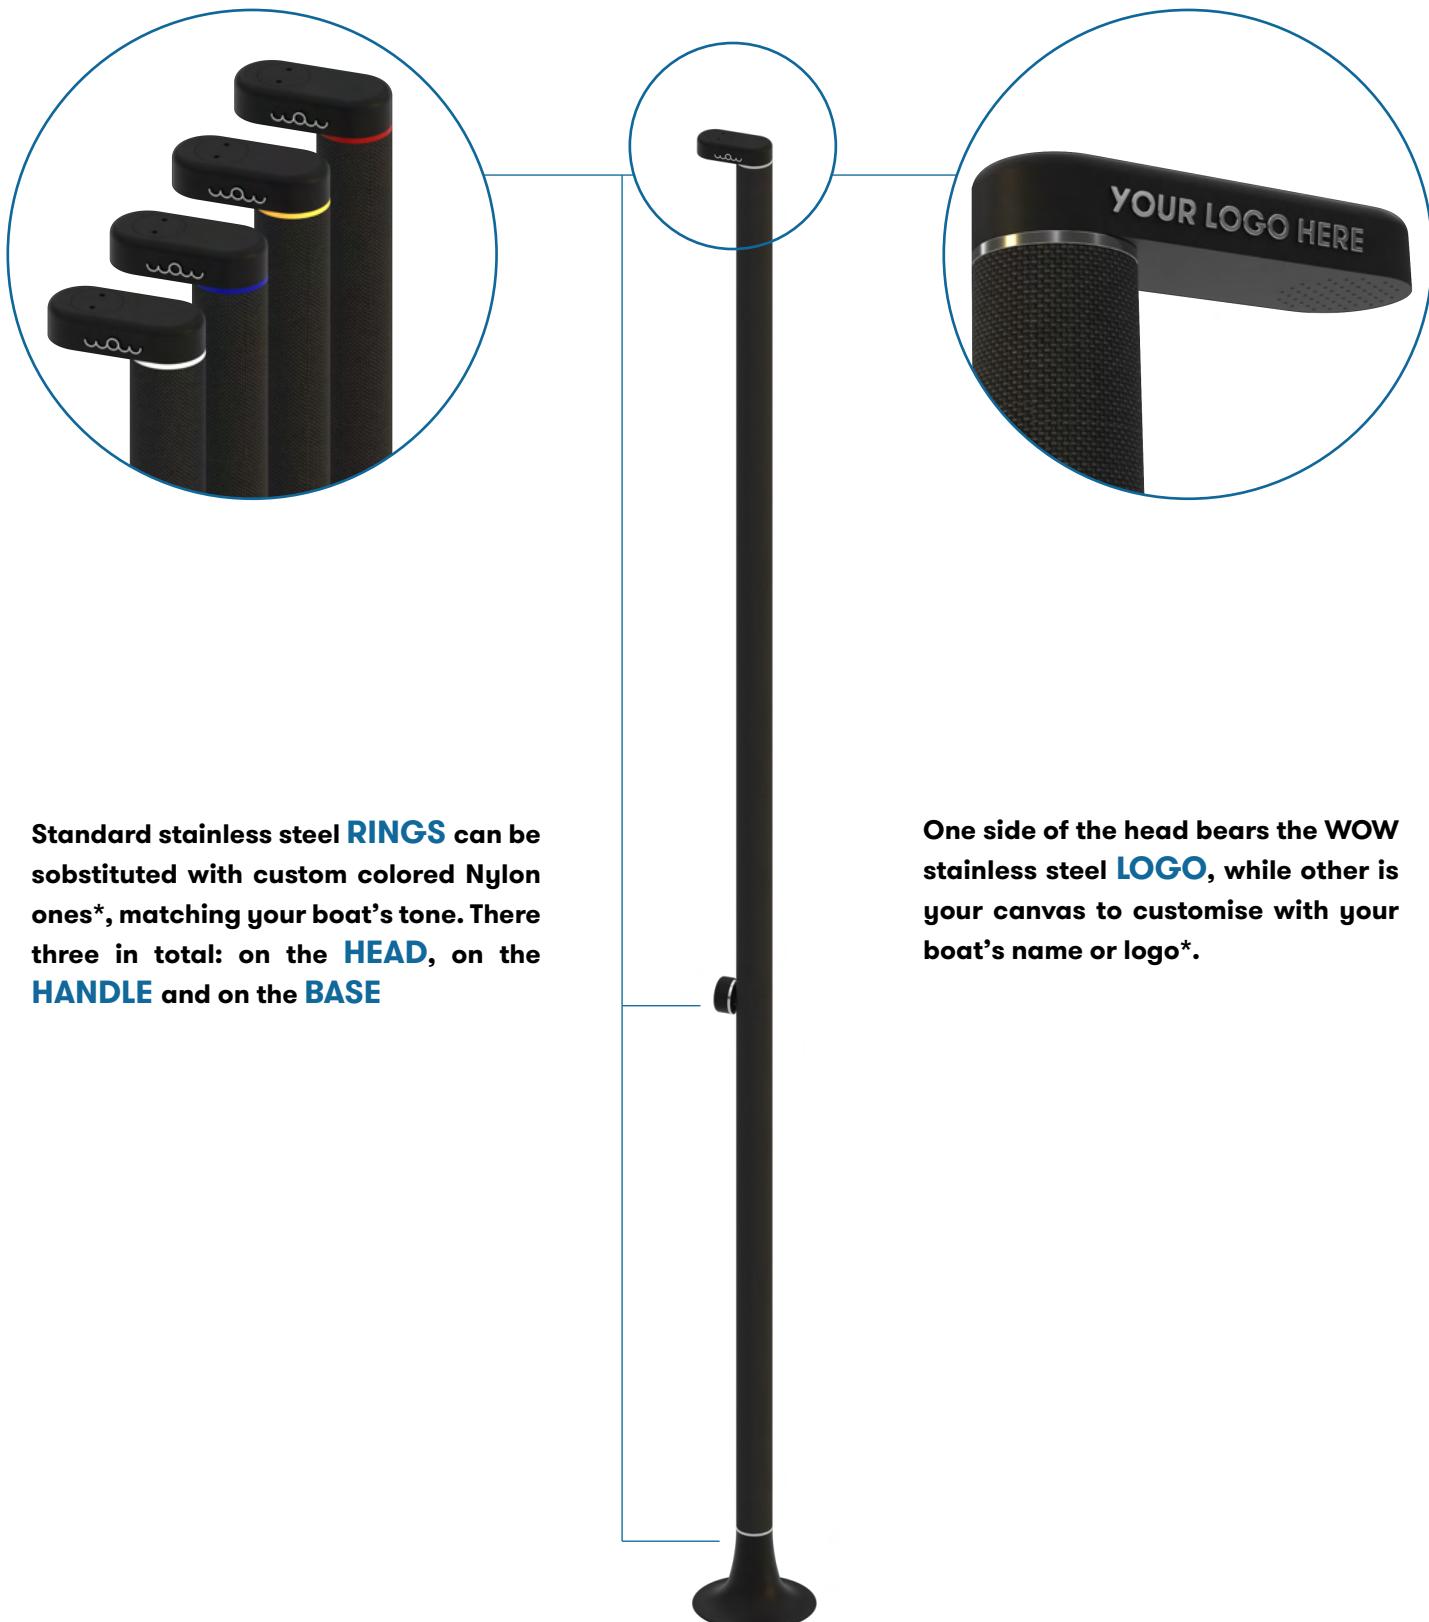

Stop worrying about where your solid soap goes during showers. Our Soap Holder keeps your bars and solid shampoos safely in place with an easy clip-on, clip-off design. Simply detach both halves when you're ready to shower, then snap them back together for neat storage. No mess, no marks. You can clip multiple Soap Holders at once, one for each soap and shampoo. If you've added custom color rings to your setup, we can match them for a coordinated look (extra cost apply). It's the small solution that makes a real difference in your daily routine.

## DECK FITTING LID

Keep your deck looking pristine when the shWOWer is stowed away. The Deck Fitting Lid seamlessly attaches using the same bayonet system as your shWOWer, providing a sleek stainless steel finish that complements any outdoor space. Simple, elegant, and designed to maintain that polished aesthetic you love.

# Customisation

Standard stainless steel **RINGS** can be substituted with custom colored Nylon ones\*, matching your boat's tone. There three in total: on the **HEAD**, on the **HANDLE** and on the **BASE**

One side of the head bears the **WOW** stainless steel **LOGO**, while other is your canvas to customise with your boat's name or logo\*.

\*Size, color and material subject to availability
